Introduction to Research

5 Stages of Computer Engineering Interview:

1. Phone Interview: Cognative and Technical Questions
2. On Site: 5 Rounds (1 HR, 2 Algorithms (C++), 1 Cyber)
   - Average Salary (Computer Engineering): $130,000 - $150,000
3. Final Offer

Task for Research:

1. Create LeetCode account
2. Get Hennessy/Patterson Computer Architecture: A Quantitative Approach Book
3. Gather and understand industry standards of Github and Jira
4. Fork Rowhammer_research repository
5. Get Dr. Arafin to fill our senior project

Homework:

1. Create and install Jira on the computer (Jira Server Version)
   - Website: atlassian.com/software/jira/download
2. Read through the documentation in research repository
3. Write abstract of the senior design project
4. Look through the code in rowhammer-test repository
